Objective

Full Stack Software Engineer with proven expertise in building and scaling enterprise applications from concept to production. Demonstrated success in technical leadership, cloud infrastructure, and DevOps practices. Strong track record of driving architectural decisions, implementing robust testing strategies, and mentoring development teams. Passionate about clean code architecture and building scalable, maintainable solutions across diverse technology stacks.

Experience

Oct 2024 - Present Full Stack Software Engineer @ CAPADEV LLP

- Architected and spearheaded the development of ViHA, a comprehensive healthcare data platform used by major hospitals in KSA, scaling from initial concept to production deployment supporting thousands of patients.
- Led end-to-end technical implementation including patient communication systems (SMS, WhatsApp, Email), automated survey scheduling, and dual-format data storage (SQL/FHIR).
- Established robust DevOps infrastructure using Jenkins for CI/CD, containerized deployment to Google Kubernetes Engine (GKE), and comprehensive testing strategy including unit and E2E testing.
- Maintained technical ownership of core platform features and architecture decisions.
- Simultaneously managed development of the company's LMS platform and corporate website, demonstrating versatility across multiple concurrent projects.

Sep 2025 - Present Full Stack Developer @ Devancy

- Worked on multiple client-based projects, developing frontend and backend features.
- Optimized existing systems through enhancements, refinements, and client-specific adaptations.

Nov 2022 - Oct 2024 Independent Software Engineer

- Developed and deployed multiple production-ready applications.
- Demonstrated versatility across modern front-end, backend-end and cloud technologies.

Skills

- **Programming (and Scripting) Languages:** JavaScript, TypeScript, PHP, Python, Java, Dart, Go, C, C++.
- **Database Management Systems:** Microsoft SQL Server, PostgreSQL, MySQL, MongoDB.
- **Frameworks and Libraries:** React, Flutter, Redux, RTK Query, Node.js, Express.js, Next.js, Laravel, Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit, FastAPI, Bootstrap, Tailwind.
- **Tools and Cloud Services:** GitHub, GitLab, Figma, ArcGIS pro, Docker, Firebase & Supabase, AWS (EC2, RDS, ECR, EKS...), Google Cloud Platform (Compute Engine, CloudSQL, GKE, BigQuery, Looker Studio...), Jenkins, Terraform, Nexus, Ansible.
- **Theory:** Complexity Analysis, Data Structures and Algorithms, OOP, Design Patterns.
- **Languages:** Arabic (Native), English (Intermediate)

Certificates

Jul 2025 - Aug 2025 Software Engineering Excellence (SE²), SE2.dev Beirut, Lebanon

- Advanced training focused on software engineering best practices, clean architecture, problem-solving, and professional development.

Jun 2024 - Sep 2024 Full Stack Web Development, SE Factory Beirut, Lebanon

- Intensive full-stack program covering frontend, backend, version control, cloud fundamentals, and web security.
- Designed and delivered a capstone project demonstrating end-to-end web application development.

Jul 2024 AWS Certified Cloud Practitioner CLF-C02, Amazon Web Services Beirut, Lebanon

- Gained foundational knowledge of AWS services, cloud architecture, security, and cost management.

Education

Oct 2021 - June 2024 Bachelor of Science in Computer Science, Lebanese University Beirut, Lebanon

Oct 2025 - June 2026 Master of Science in Computer Science, Lebanese University Beirut, Lebanon
